

Health & Safety Top Tips

Access on site

- Can everyone get to their place of work safely – and work there safely?
- Are access routes in good condition and clearly signposted?
- Are edges which people could fall from provided with double guard rails or other suitable edge protection?
- Are holes protected with clearly marked and fixed covers to prevent falls?

A steel fixer was killed when he fell through an unsupported decking sheet. A number of decking sheets had been used as temporary covering for the lift core of an existing building.

- Is the site tidy, and are materials stored safely?
- Is lighting good enough?
